RESOURCES FOR GLBT YOUTH

The Minneapolis–Saint Paul resource for GLBT youth is “District 202” (see the website at <http://www.dist202.org>). This resource is an all-inclusive Community center and support service for GLBT youth in the Twin Cities. The center provides a safe space to explore gender and sexuality issues and provides educational and social opportunities.

Please, keep in mind that you may make inquiries solely for the purpose of gaining information, and that you do not have to have any belief about GLBT one way or another. Also, these types of resources do not recruit or encourage any specific behavior. They simply can answer questions you may have and provide accurate information.
